PROPOSAL BY SIFTP PVT. LTD.

Wakalat Desk

The digital case diary, court sync, drafting and billing app for advocates in Pakistan. On Android, Windows and the web.

Presented by
Rahib Hussain, SIFTP Pvt. Ltd.

Date
October 2026

THE PROBLEM

How most chambers still run today

01

A paper diary

Next dates are copied by hand after every hearing. One missed entry means a missed date and an unhappy client.

02

Slow drafting

Petitions and notices are rebuilt from old files, in English and Urdu, and citations are retyped by hand.

03

Fees slip away

No record of what each client owes. Consultations are given free and balances are chased from memory.

WHY NOW

Pakistan’s courts are going digital

Supreme Court	E-filing at every registry. Advocates-on-Record and ASCs must register on the Case Management System.
Lahore High Court	Lawyer e-filing portal with SMS and email notices of hearings.
District Judiciary Punjab	Daily case proceedings and next dates online for all 43 districts.

The data is now online. Advocates still copy it into a diary by hand. Wakalat Desk closes that gap.
